

WHITE MAJORITY ENSLAVED

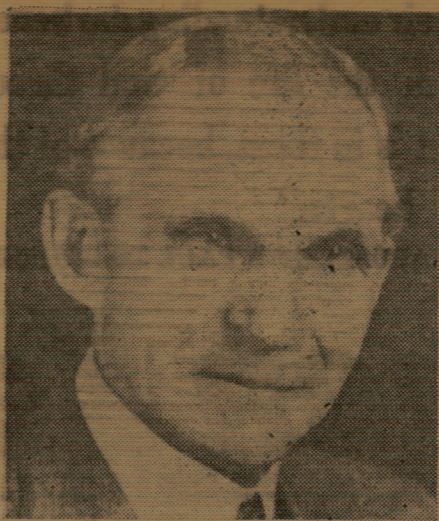

(Continued from Page 1, Column 3)

Jews who produced Zionism and Marxism had made a definite departure from the fold. They sometimes had themselves baptized as Christians, but more often simply proclaimed themselves to be atheists. They dined now and then on roast suckling pig. In some cases they paid a bare lip service to the old religion; in other cases they expressed open contempt for it. In either case, it was no longer a binding law. Neither was it a sufficient source of spiritual or intellectual power to assure the cohesion of the Jews or their survival as a cohesive group. Clearly, something new had to be added. In the normal course of events, Judaism would simply have drifted into oblivion. By now, it would be like unto other ancient religions which are long gone. This would have been entirely a good thing. It would have been good for the Jews, and it would have been good for their Goy neighbors.

This good thing could not be allowed to happen. There were the Rabbinical rackets which needed to be kept going. These alone would not have been sufficiently strong to have saved Judaism; but there was also the Rothschild Bank, and the Bank had uses for the Jews. It needed them as "Economic and Political storm troopers." If they could be held closely organized, they could be used to extend the influence and power of the newly-emerged MONEY GANG. If the Jews were to serve this purpose, they had to be organized on a basis of self-interest, not a basis of religious observance. The old religion was maintained as a relic; but the Rothschilds did not depend upon it to hold the Jews together, or to make them function as useful servants of the Bank. Intellectuals spawned by the Rothschild Bank bred Marxism and other secular philosophies, which pretended to be "Proletarian," but which in every case always served the purposes of THE BIG MONEY. Indeed, the modern Jew, in so far as he is drawn into the orbit of Rothschild influence, serves only the purposes of the BIG MONEY. Even when he is a "Proletarian Revolutionist," he is firmly bound to the chariot wheels of Mammon. The great banks of New York financed the October Revolution in Russia. The only Jew who escapes this enchainment to Mammon is the poor Jew, the one who has no ambition. "Blessed are the meek, for they shall enter into the Kingdom." The ambitious Jew must go along with the Machine; it offers him the shortest and fastest route to personal advancement. Any other way is the long, hard way.

The Rothschilds also made profitable use of "Anti-Semitism." Indeed, they often secretly financed anti-Semitism. Some people say that fear of persecution is the only force which holds world Jewry together today. The Rothschilds, profiting from the cohesion of the Jewish world community, occasionally backed anti-Semitic scares, although by that time the old religious hostilities between Christians and Jews had largely died out, due to the decline of both religions. Modern world Jewry became "The storm troops of Capitalism." Jewish intellectuals operated the whole system of charlatanry which revolved around Marxism. They ran the fraudulent Marxist political parties and the fake Marxist trade unions, all of which were always under the secret control of the great Capitalists. The modern Jew is thus a highly functional creature. He is harnessed to a specific chariot, and he pulls with a will.

There are those who say that modern "Jewish Supermen" will rule the world. This is nonsense. The Jews are mere fellahen, the residual slag-heap of an ancient Oriental culture which once was brilliant, but whose fires have long since burned out. The Jew is a mere fossil relic of ancient times. The corpse of a dead Judaism was exhumed by the Rothschilds; puppet strings were attached to it; expert puppet-masters were assigned to pull the strings to make it

appear alive. Jewish supermen? We don't know any Jewish supermen. The Jews we know are mostly a bunch of jerks. MONEY is the puppet-master which pulls the puppet strings to make this ancient fossilized corpse appear alive.

Negroes are the second most active element in the Minority power structure. Some benefits accrue to Negroes from their participation; but these benefits are very unevenly distributed. A few glamorous Negroes get the lion's share. Stokeley Carmichael can move into a \$70,000 house, but most Negroes still live in the slums. The fact is that a few glamor-Negroes are selling the rest of their race into slavery to the technological Simon S. Legree. They are the kind of finks who arise among the oppressed everywhere. They do always the bidding of their real masters, those whom they meet in secret, those who pay them to sell their own kind into a foul bondage. They are like those Negro kings of the Bight of Benin who sold their own kind to the captains of slave ships long ago. They will profit hugely, and they do not care a jolly good damn about the luckless ordinary Negro who gets it in the neck.

Indeed, mongrelization is no new policy in America. For a hundred years, the phony "White Supremacy" politicians of the South have been steering the South toward a coffee-colored population as fast as they dared. They have forced poor whites and poor Negroes to compete viciously on the economic scene; this is the shortest and fastest route toward race mixing. The silly humbug, the fly-blown sloganeering, and the shameless profiteering of Southern politicians have covered up this scandal down where the sweet magnolias blossom at everybody's door, but secretly the white Southern politicians are fully in sympathy with the damyankee integrationists. Look at your typical Congressman: When he has grown fat on Government graft, he buys land. WHOM do you find working on his land? At sundown on Congressman Gus Gasbag's land, you will always hear the darkies singing sweet and low. He wouldn't give a poor white man the slightest chance to earn a living. It is the iron law of Demographic Science: The only way to have a white population is to protect the economic, religious, and cultural life of white workers, including the poorest of them. The Southern politician talks a good game of "White Supremacy" to the white voters; but in secret he is, as Francis Parker Yockey said of these contemptible political whores in his PROCLAMATION OF LONDON: "To complete the destruction, the lying fraud of elections tries to convince the people every few months that somehow they govern themselves. Between the lies that the candidates offer the populace, and the commitments they make to their real masters, there is not the slightest connection. The

programmes submitted to the electorate are compounded out of old liberal-communist-democratic ideological material, long since historically dead. To these creatures without honor, character, or even bare understanding, the future is simply an extension of the past." The politician wants us to be either roaring "Nigguh-haters" or ecstatic "Nigguh-lovers." He does not allow for any possibility that we might, by the application of real intelligence, arrive at a genuinely constructive or happy solution of our racial problems. He only wants to sit, like Ole Massa of yesteryear, on his veranda, and listen to the darkies singing sweet and low, to him a sweet, sweet song of CHEAP LABOR, and to hell with the racial and cultural integrity of the nation.

Now that we have dealt with Jews and Negroes, we shall undertake to investigate the TERRIBLE SECRET MINORITY which is really the WORST of all. This minority may be called the rich WASPS. "WASP" of course stands for White Anglo-Saxon Protestant. Add the word "RICH" in front of the word WASP and you have the worst rascal in the country. It is useless to attempt to kid me about this. I grew up in a nest of rich WASPS and know all about them. The rich WASPS are a separate race entirely from us poor WASPS. Actually, they came from the same basic Anglo-Saxon stock as the rest of us, but they became phony imitation Jews in order to avoid acknowledging any racial kinship with the unholy, impoverished rest of us. It is necessary to define the term "Poor WASP." By "poor" we do not mean people on Welfare; we mean people whose yachts are less than a hundred feet long. The rich WASPS will interbreed the poor white workers of a white slum in Chicago or Mobile, Alabama with Negroes; they will do exactly the same thing in Westport, Conn., where the "poor whites" toil and moil in the dark satanic mills of industry, often for a mere pittance, which may be as little as thirty thousand dollars a year. The rich WASPS are absolutely consumed with contempt for us poor WASPS. We gather in our squalid little yacht clubs to mutter against them. We would like to engage in a little free enterprise now and then; our worst enemies are not the workers, but rather the Big Business men, the REALLY big business men, who want to organize the whole world into one big corporation, called "The World State." The bourgeois pond in which we swim is a SHARK POND, in which the big ones devour the smaller ones. The rich WASP talks a good game of Conservatism and supports Communism around the world; he talks a good game of Patriotism and supports Internationalism because he is doing business in forty countries and wants a standard corporation law for all of them, along with a standardized interbred race, a standardized apostate religion, and a standardized technological slavery.

The rich WASP is still what he was in the old days, when he sat on the veranda of the plantation house and listened happily to the sound of the overseer's whip cracking upon black hides. He is a traitor to his race, his religion, his country, and himself. He hires liberal intellectuals to cover up his black-hearted rascality with silly pap about "Human welfare." He controls both the Right Wing and the Left Wing. Often he controls the funny little Jews who are merely his front men. The publishing house which publishes Jewish novels exclusively is often owned by the long-haired, degenerate heir of an old Yankee shipping fortune, earned long ago in the slave trade; the editor is the son of a Methodist minister from Iowa; the writers are all Jews and Negroes. This is simply the policy of the rascal rich WASP in action. He hates his own race. He will never give one of us a job if he can possibly find a Negro, Jew, Eskimo, Hottentot, Arab, Chinese, Japanese, Samoan, or Punyan Dyke to hire instead.

The rich WASPS, the rich Jews, and the glamor Negroes are the ruling class of the country today. All three are consumed
